UNDER THE REVISED CODE.

THE FIRST DAY OF THE NEW RULES IN THE POLICE COURTS. fustices Not Tet Agreed as to What is Required of Them-Differences in Manner of Procedure-The District Attorney's Action -A Sample Case-Warden Finn's New Title

The new Code of Criminal Procedure was the theme of conversation in the police courts yesterday. It affects in many ways the manner of conducting business, and greatly increases the work. Formerly, in all cases of misde-meanor, the affidavit of the complainant was the only necessary paper. The formal examination of the prisoner was recorded only in cases of felony. Now, in each case of misdemeanor, no matter how trifling, where the accused person is held for trial, there are four papers-the amdavit, the prisoner's election of place of trial, the formal examination of the prisoner. and statement of the Police Justice regarding amount of ball and commitment of prisoner. The form of commitment and bail bond is the same now as formerly. The following is an illustration of the present manner of conducting a case of misdemeanor:

In the Jefferson Market Police Court yester day Edward Hughes was charged with simple assault by Policeman Patrick McNelce, who made the following affidavit:

POLICE COURT, SECOND DISTRICT-State of New Pork, city and County of New York, at : Patrick McNeice of Sixteenth Precinct police, being duly sworn, deposes and says that on the 31st day of August, in the year 1881, at thecity of New York, in the county of New York, he was violently who, while he was under arrest, struck deponent, who had arrested him, several blows with his clenched fist, on his breast, and tripped him up, without any justification on the part of the said assailant. Wherefore this deponent bound to answer for the above assault, &c., and be deals with according to law. SOLON B. SMITH, Police Justice.

Justice Smith decided to hold Hughes for trial and asked him whether he desired to be tried at the Court of Special or General Sessions. Hughes chose the Court of Special Sessions, and was required to sign the following: Police Court Second District—(it) and County of New Fork, at The People against Edward Highes. On compliaint of Patrick McNeice for assault and battery. After being info med of my rights moler the law, I hereby—a trial by jury on this compliant, and demand a trial by jury on the compliant, and demand a trial by jury on the compliant, and demand a right of the Court of Special Sessions of the Peoce, to be holden in And for the city and county of New York, Daten Sept. 1. 1841.

Solos R. Srith, Police Justice.

Solos & Sairis, Police Justice.

He was then formally examined, and the following record was taken:

Sacon District Police Court—One and Owney of New Fork, w. Edward Hughes, being dilly examined before the underspined, according to law, on the annexed charge, and being informed that it is his right to make a statement in relation to the charge against him, that the statement is designed to enable him, is he see fit to answer the charge and explain the lacts alleged spainst him, that he is at histery to waive making a statement, and that his waiver cannot be used against him on the trial.

and that his waiver cannot be used against him on the trial.

Justice Smith then fixed the prisoner's bail at \$300, and, as he had no bondsman, committed him. Highes was removed to the Jefferson Market prison prior to being taken to the Tombs. The following paper was then pinned to the others:

Tombs. The following paper was then pinned to the others:

It appearing to me by the within denositions and statements that the crime therein mentioned has been committed, and that thele is sufficient cause to believe the within named Edward Huganes smitty thereof. I order that he be held to answer the same, and be admitted to be in the same of 550, and be committed to the warden or accept of the City Prison until he give such bail.

Dated Sept. I. 1881. Solos B. Sams Police Justice.

The bundle was then endorsed with the names of the Justice, complaining the agreet, withresses, the polyceman making the agreet, and the disposition of the case. Under the old method the affidavit of McNelce would have been the only paper required. In the old method the amidavit of McKeles would have been the only paper required. In regard to felony cases, their taking involves no more work. The form of the warrant issued by the Folice Justice is materially changed. It is much longer and embodies a temporary com-

Finally, a preliminary injunction is asked to debar the Spragues and their counset from further clouding the title to the trust estates, and from preventing the advertised sales of the said estates for the bonefit of the creditors at large. Citations were issued this morning returnable at 10 A. M. Saturday, when the matter will be argued. This last step of the trustee not only adds greatly to the confused condition of the estate, but if the prayer of the peritioner is granted it will be the means of utterly ruining the Spragues.

Justice Murray, in the Essex Market Police Court, directed his personal clerk to take notes of all cases worthy of public attention, but to peremptorily refuse to give any court papers for inspection. poremptority refuse to give any court exper-for inspection.

In the Yorkville Police Court there was a full return, and the clerks experienced some diffi-cuity in complying with the new regulations. The greatest care was taken in keeping all papers out of the reach of the reporters, and much timidity was shown even in allowing the reporters to look at the bolice returns, which are usually destroyed and never kept or record. The greatest care was used in guarding from The greatest care was used in guarding from the recorders the three affidavits in intoxica-tion case, which were disposed of in the Har-lem Police Court yesterday. tion cases, which were disposed of in the Harlem Police Courty esterday. The wheels of justice mere in no way clorged in this court by the provisions of the code, as there is little change in the form of the intextection effidavit.

The operations of the new code were the occasion of some hitches, vesterday, in the nustiness of the District Attorney's office. The main difficulty was in the matter of bail. The theory of Assistant District Attorney's office, the representative of District Attorney Rollins, whose vacation has not ended, was that the code went into office at midnight on Wednesday and that any application for admission to bail made thereafter must be deal with in accordance with the new code. Several applications were made for the release on bail of defendants under arrest, but who have not been indicted by the Grand Jury. Bail Clerk Bonynce informed counsel for the prisoners, with Mr. Pheips's sandion, that as there was no order from a Police Justice, flying the amount of bail, attached to the potters from the Police Court, in any of these paters from the Police Court, in any of the potters from the Police Court, in any of the potters from the Police Court, in any of the potters from the Police Court flustice. This order had not been obtained, in any instance, up to a late hour, and therefore no bail was accepted. This worked a bar ship to the prisoners, some of whom may be innecent.

Mr. Pheips sent a messenger to the Police Courts early vesterday morning with a formal waiver of his appearance in cases of petty larceny and other minor of leness, as provided for in the new code. Fire visited, later in the day, the courts in the lower part of the city and conferred with the presiding maristrates. The following was sent to Justice Patterson:

Similar communications were received by the other Justices.

"Takeu as a whole." Mr. Phelps said, "the new code is advantageous. Naturally, there will be some jarring until it has got to working smoothly, through decisions of the upper courts settling the interpretations to be put upon clauses about which there is any doubt. The chief merit that I see is the simplification of the eriminal procedure. In one hands little book we have guidance as to nearly every, if not every contingency in criminal practice. I cannot too highly commend the sections of the code from 510 to 514, which provide for the nucleing of old offenders. These sections empower a Judge to declare any person an abilitual criminal upon his second conviction within the State of a criminal offence, or his little conviction of a missienceanor. The police may summarily arrests such a person analesarch

prosecutor hitherto has had the mortification of seeing professional criminals escape from him because he could not give the jury information as to his past life,"

"We have had to secure a new set of blanks for bell bonds and indictments." Gen. B. B. Foster, chief clerk of the District Attorney's office, said. "I frankly say that I do not regard the new form of indictment as an improvement. It is made more verbose than the old one. Altogether too liberal a construction seems to have been put upon section 203, which reads as follows: The magistrate must also, upon the request of the defendant, exclude from the examination every person except the clerk of the magistrate, the prosecutor and his counsel, the Attorney-General, the District Attorney of the county, the defendant and his counsel, the officer having the defendant in custody. Now, there appears to be no reason, when the context is considered, to interpret this section as authorizing the police magistrate to make a star-chamber investigation. The proper interpretation would seem to be that the defendant might ask to have the witnesses of the opposite side put out of hearing during his own personal examination. There is apparently no justification for the construction that has been put upon this section, to the exclusion of reporters or other citizens from the entire hearing before the magistrate."

Mr. Phelps, who was present, approved Gen. Foster's views.

President Grant, which was to have been held this event-ing in Educational Hall, has been postponed until Presi dent Garfield is out of danger. In his letter to the committee ex-President Grant said:

"I would at all times afford me pleasure to meet the members of your association and the residents of Ocean Grove and Asbury Park, out at this time, when the country is in despair over the prostrate body of the Cinef Magistrate, whose his seems to have by a single thread, I am not willing to accept the compliment implied by the announcement, which I have read in the papera."

An interesting social event in Charlotte, N. C., the coming fall, wither the marriage of a bitted ciritio a deal mate. The braid's visual infirmity does not be part to be active and the braidy of her ryes and has not been suffered to him der the development of her mint, while the group is a hand-some and inclined man. After the first difficulties in an after the first difficulties and introduction has been surmainted, the countilly of an introduction has been surmainted, the countilly of an introduction has been surmainted. The right and some pathy and understanting are now so deep that, when they are together, each resulty supplies the atterfalors, and their combined senses are equal to any emergency.
